

Case study #: Topic of your case study

Your Name

yyyy-mm-dd

Paragraph 1 title

Content of paragraph 1. Your R Markdown file should be neat and easy to read. Use this template as a guideline, and make adjustments as needed.

Paragraph 2 title

Content of paragraph 2

Code

Load packages and data

```
library(tidyverse)
library(ggplot2)

raw <- read_csv("example_data.csv")
```

Clean data

```
data <- raw %>% mutate(example_clean=A+B)
```

Example plot

```
ggplot(raw, aes(x=A, y=B)) + geom_point()
```

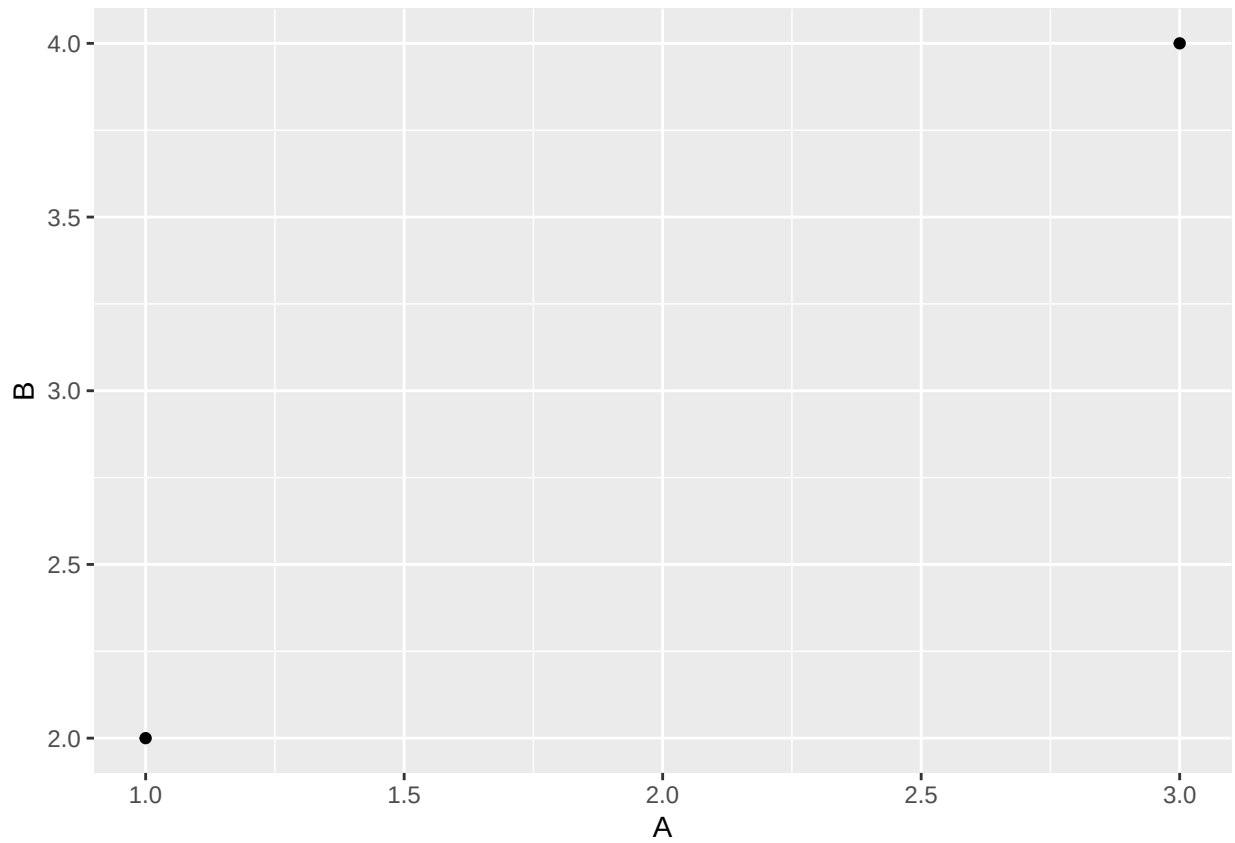

Figure 1. This is an example plot. You can add figure descriptions beneath figures like so.
